

ENSEKI AOJIRU V1

Enseki Aojiru V1 is the easiest way for you to acquire the widely recognized protective effects of natural plant foods against cancer.

What is Enseki Aojiru V1?

It is 100% pure organic kale powder in tablet form. Certified organic by JAS of Japan.

Why is Enseki Aojiru V1 so different?

The kale is grown only in winter where pests activity is low and no pesticides are needed. Kale grown in winter also fares better in colour, taste and nutrients.

The soil is fertilized by organic fertilizer and repeat mixing of 3 edible fungi (yeast, lactic bacteria, bacillus natto), calcium-rich pearl shell and oil meal.

The kale harvested were then dried at ambient temperatures by a patented Far-infrared Ray process. The process does not damage the kale's nutrients, color or taste. Also medical studies (collaborative studies with Ehime University) has confirmed that GABA and other nutrients were increased.

Enseki Aojiru V1 is a easy-to-drink tablet made solely of fine powder of 100% natural organic kale without the use of any solidifying or granulating agents. Easily dissolved and benefits of 100% pure organic kale is almost instantaneous.

What are your benefits of taking Enseki Aojiru V1?

Kale belongs to the family of cruciferous vegetables well-recognized for its unique phytonutrients both in preventing and fighting several types of human cancer. Researchers at Eppley Cancer Institute in Nebraska found that feeding animals with kale curtailed both the occurrence and the spread of breast abnormal growths.

Kale also contain a compound called sulforaphane that is a potent inducer of enzymes that detoxify carcinogens and flush them from the body.

When you take 10 tablets of Enseki Aojiru V1, it is equivalent to you eating 100g of tomato, 130g of lettuce, 50g of carrot, 20g of leek, and 33g of bell pepper.

A research conducted by Yonsei University, Korea in 2007 found evidence that regular meals supplementation with kale juice (aojiru) can favourably influence cholesterol profiles and antioxidant systems, and hence contribute to reduce the risks of coronary artery disease in male subjects with hyperlipidemia (high cholesterol).

A study at Japan's Fukuoka University also revealed "kale, a raw material for Aojiru, alleviates diabetes".

Recent studies also found kale to be an incredible source of well-absorbed calcium, which is one of the many factors that may help prevent osteoporosis.

Enseki Aojiru V1 tablets has significant amount of the two important carotenoids: lutein and zeaxanthin which help protect the eyes from UV damages and cataracts.

Taking Enseki Aojiru V1 before going to bed can greatly improve the quality of your sleep, allowing your body the time to do a proper repairing job ready for a new day.

Because Enseki Aojiru V1 also contained a significant

amount of GABA (gamma-Aminobutyric acid), which research found to be able to enhance the level of our natural HGH (Human Growth Hormone) secretion, you may be slimmer, healthier and perhaps even look younger taking V1 regularly.
